

RECYCLING GUIDE

Since 2015, the City of Lakeland has recycled over 400 tons of materials which would have otherwise ended up as waste in the landfill! Congratulations to our well-informed & thoughtful residents, what an amazing accomplishment.

As the New Year nears the City of Lakeland is looking for even more ways to save items from a wasteful fate and it all starts with you!

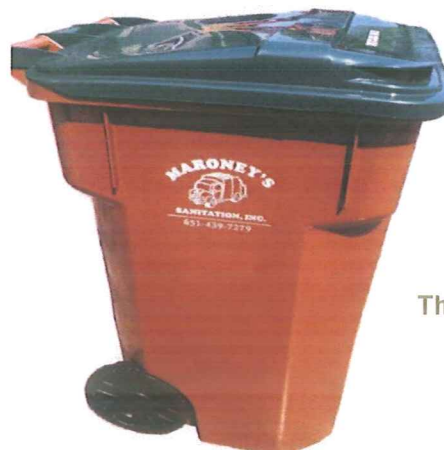

TIP: When out on a hiking trip or just a stroll in the community, be sure to bring along a knapsack to carry any recyclable or trash items for times when there is not a trash or recycling bin nearby.

PLEASE RECYCLE THESE ITEMS

Paper, Plastic (not #3 or #6), Glass, Tin & Aluminum--
All Materials go into the recycling cart loose and mixed!

No need for sorting!

The City of Lakeland's recycling provider is
Maroney's Sanitation
